

Product Information Bulletin

64% Turkey Byproduct Meal

Poultry Byproduct Meal is one of the most important sources for high-quality protein when it comes to feeding all types of animals. We take the ground, rendered, clean parts of the carcass from the slaughtered poultry- necks, heads, feet, undeveloped eggs, gizzards and clean intestines. Poultry Byproduct meal is exclusive of feathers, however in some cases contains feathers that are unavoidable in the processing of poultry parts.

INGREDIENT DECLARATION

64% Poultry Byproduct Meal

TYPICAL PHYSICAL ATTRIBUTES

Color: Golden Light Brown

Flavor: Fresh Poultry Odor

TYPICAL CHEMICAL ATTRIBUTES

Protein	64% Min
Moisture	5.0%-8.0% Range
Ash	14 Max
Fat	16% Max

TYPICAL MICROBIOLOGICAL ATTRIBUTES

Salmonella	Negative
------------	----------

FEATURES / BENEFITS

- High Quality Protein Content
- Low in fat
- Low Moisture
- Cost Competitive
- Increases Feed Efficiency
- Rich source of Essential Amino Acids
- Increases growth Rate
- Improves Performance

APPLICATIONS

- Aqua Culture
- Dry Pet Food
- Dry Blends
- Animal Feed

PACKAGING

Bulk Hopper Bottom Truck

STORAGE / SHELF LIFE

Shelf life is six months from the date of manufacture when stored in a cool, dry environment.
